

# For Your Safety-Guidelines for Play

- Keep the 6' "Social Distance" while you play.
- Do not pull the flag sticks from their holes. There will be surface just under the top of the hole that will allow your ball to fall slightly below the top so it's easy to retrieve your made shot.
  - Don't pick up anyone else's golf ball or clubs.
  - Don't use any ball washers or sand trap rakes.
- Please play the bunkers as "ground under repair" and take a free drop if you need an improved lie.
- Range balls will be available. Range baskets will be sanitized after use, range balls will be picked and cleaned.
- Beverages and pre-packaged snacks will be available in the pro shop for your consumption outside of the clubhouse. Allow the pro shop staff to set the product on the counter for you.
